

BUILDING A SUSTAINABLE FUTURE

Beyond Construction, We Are Dedicated to Conservation

SAI is an environmental contracting firm specializing in the supply and installation of geosynthetic products. Our focus is on excelling in complex and high-volume projects. Each project reflects our commitment not only to our clients but also to the planet we all share. We look to a future where sustainability is not just an option, but is integral to all our construction decisions.

CERTIFICATIONS

To maintain the trust of our clients, we ensure we are always up to date with the necessary certifications required in our industry sector.

EXPERIENCE

Our extensive work experience encompasses over 360 million square feet of geosynthetic materials installed across various regions including Canada, the USA, Mexico, Central and South America, as well as Europe and Africa. This experience is not just vast in terms of area, but also in the breadth and depth of knowledge we bring to our projects.

360,000,000 sqft installed

1,482 projects completed

Projects done in **10** different countries

30 years of experience

250 + employees

3 sales offices in the Americas

SAI MODEL

SOLUTIONS

- ✓ Water loss prevention
- ✓ Soil protection
- ✓ Caps and closures
- ✓ Secondary containment

Construction & Infrastructure

- Golf Course Ponds
- Decorative Ponds
- Foundation Waterproofing
- Tank Lining
- Green Roof
- Roads and Highways
- Ports and Airports
- Erosion Control
- Temporary Water Ponds

Mining

- Heap Leach Pads
- Solution Ponds
- Tailings Dams
- Bird Netting
- Tunnels
- Process Pipe Channels

Industrial & Chemicals

- Secondary Containment
- Process Plants
- Equalization Ponds

Landfills

- Solid Waste Landfills
- Liquid Waste
- Landfill Closure

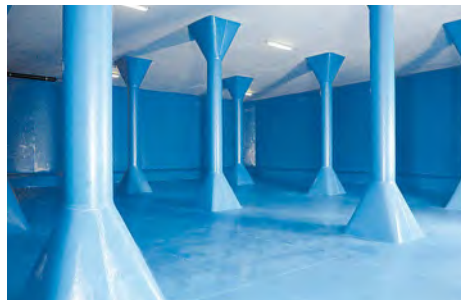

Energy

- Evaporation Ponds
- Primary Containment
- Secondary Containment
- Coal Ash Depositories
- Collection Trays

Water & Wastewater

- Water Reservoirs
- Floating Covers
- Water Baffles

Agribusiness

- Water Ponds
- Portable Water Tanks
- Biodigestors

MATERIALS

Geomembrane

- HDPE / LLDPE (Smooth, Texturized / Structured & Conductive)
- Reinforced PE/PP
- PVC / PVC Reinforced
- EIA Coated
- EPDM
- XR-5
- Bituminous

Composite

- GCL
- Closure Turf ®
- Conal 3®
- JDRAIN®
- Geotextile-Geonet-Geotextile
- Geotextile-Geogrid
- Concrete Mat

Geotextiles

- Non-Woven Geotextile (Environmental, Civil, Transportation)
- Woven Geotextile
- Geogrids (Uniaxial & Biaxial)

Erosion control

- Pond Edge Treatment
- Turf Reinforcement Control
- Erosion Control Blanket
- Gabions

Piping

- Smooth
- Corrugated
- Perforated
- Fittings
- Electro-fusion Couplings

Rigids

- Sure-Grip
- UHMW
- PP / CO-PP
- PE
- PVC
- CPVC
- PVDF

Shades and Tarps

- Bird Netting
- Fence Screen
- Industrial Tarps
- Wind Protection

SERVICES

Lining installation

From 10,000 SF to 20,000,000 SF in every sector of the Construction Industry

Lining repairs

Fast, reliable service to put you back into service and compliance.

Leak location services

Whether your pond is filled with water or empty we can assist in location of leaks with the newest forms of technology.

Piping installation

Installation and Assistance with material and equipment.
