**Construction & Mining Supplies**

# About us

"We are a supplier of world class, quality replacement wear parts for mobile heavy equipment in the mining and aggregate industries. Committed to service and offering comprehensive solutions. Our focus is to earn our customer's trust by maximizing product performance and durability as we provide quality parts backed by field support".

## MISSION

To be the best comprehensive option in the supply of high quality products, providing advice and solutions focused on the needs of the market, and to be committed to the development of our collaborators and the community where we live in.

## VISION

To be known by our customers as their first choice in the supply of quality replacement parts in the mining and aggregate industries.

## VALUES

- Innovation and creativity
- Quality and Productivity
- Honesty and Leadership
- Respect and Accountability
- Integrity and passion for service
